REPLACEMENT OF EXCISE FUEL MEASUREMENT DETERMINATIONS

Dear Mr Anastasios Polas,

On behalf of its members and associates, Gas Energy Australia (GEA) appreciates the opportunity to provide feedback on the replacement of excise fuel measurement determinations. This is an important task for ensuring that legislative instruments are suited to the current environment.

GEA acknowledges these are replacement excise fuel determinations and there is no change in the method by which the fuel is to be measured for determining the amount of duty payable. Consequently, GEA has no comment on the proposed replacement.

GEA looks forward to continue working with the Australian Taxation Office on behalf of the gaseous fuels industry to address common issues in the future.

Yours sincerely
